RE: Message from our CEO

Dewlyn Nonprofit Services is a Georgia company that is exclusively focused on helping small nonprofit organizations plan for and achieve success. We are located in Kennesaw, GA. Each year, we help over 3,000 nonprofits anywhere in the U.S. as well as a few international nonprofits position their organization for growth, funding, and sustainability. As industry experts, we create business development solutions for emerging and established nonprofit organizations. Our key services include grant-writing, “already-done” grant proposal templates, training, consultation, and small group weekly coaching. In addition, we are a SCORE partner delivering nonprofit training for SCORE.org chapters in Georgia, North Carolina, Florida, Tennessee, and California.

It brings us great joy to provide this template example for you. Our grant proposal templates have helped nonprofit leaders secure thousands in grant funding. The highest amount on record as of 2022 is \$100,000 for a single organization between 2021 and 2022. It is our sincere hope that you can successfully use this template to secure funding to further your nonprofit mission too.

Thank you for all that you do to make our world a better place.

Kind Regards,

A handwritten signature in black ink that reads 'C. Smith'.

Letter of Inquiry (LOI)

How to Apply!

A Letter of Inquiry (LOI) is a quick way for you to introduce yourself and your charitable program to a potential funder.

The LOI is also a resourceful way to open up conversation about the wonderful contributions that your program is making in your community and how much money is needed to continue or expand your services to more people. If the funder determines that you are mission-aligned and likes what he/she reads in your LOI, usually, they'll extend an invitation to you to submit more details about what you'd like them to fund. They may even fund you without additional information. Worst case, the funder decides to deny your request. In this case, you have spent very little of your time; simply thank them and move on to your next opportunity.

Before mailing or completing an LOI online, read the funder's guidelines for submission, and follow the guidelines precisely.

Also, visit www.guidestar.org, enter the funder's name and read their IRS 990PF so that you can gain a clear understanding of the kinds of programs they have funded in the past; which states they prioritize for funding; the amount of funding typically awarded; and in some cases, you'll need to access the IRS 990PF for the address to send your LOI.

How to Apply!

Procedures:

ALWAYS follow the funder's instructions. Typically, your LOI written request should be sent by US mail, email, or completed online (on their website). Be sure to include a brief, but detailed description of the organization and legal structure; the project to be funded; why the project is needed; state the project benefactors; explain the purpose for which funds are being requested, and the amount of the request. Note: your Express Proposal template includes this information.

If a funder doesn't give you guidelines for submission attachments, always include the following:

1. Your Letter of Inquiry signed by you in [blue ink](#).
2. Copy of your IRS Tax Determination Letter
3. Program Budget
4. Board List

Dear Grant Administrator,

I hope this letter finds you in good health. My name is Jane Doe. I am the Board Chair for Community Heroes, Inc., a nonprofit organization dedicated to providing clean water resources for the metro Atlanta residents. Our mission is to provide safe water solutions for Georgia residents. In our search for mission-aligned funding opportunities, we came across the ABC Foundation. In harmony with your giving priorities that include support for environmental charities, we Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Why we do this

Although access to clean drinking water is a fundamental human need, unclean water supplies continue to be a persistent and visible issue in the United States. In fact, drinking water systems serving millions of people across the U.S. fail to meet state and federal safety standards. And according to the U.S. Environmental Protection Agency (EPA), drinking water with unsafe levels of contaminants, can cause health effects, such as gastrointestinal illnesses, nervous system or reproductive effects, and chronic diseases such as cancer. Sadly, based on CDC reports, diseases from dirty water kill more people every year than all forms of violence. By contrast, when people have access to clean water, they have more time to go to school, earn an income, and maintain their health. We are seeking funding to help offset our costs to acquire a new prefabricated water storage tank so that we can produce more clean water units for immediate distribution to low-income communities.
